**Unravel Pediatric Cancer** was founded and inspired by the death of Jennifer Lynn Kranz, a beautiful 6 year old Gilroy resident. Jennifer, "JLK" died from DIPG, a form of brain cancer in 2014. Her parents donated Jennifer's tumors to Stanford Hospital and a cell line was created- which is helping researchers world-wide seek better treatments, and ultimately a cure.

Proceeds raised from this Golf Tournament will go to the Stanford laboratory with Jennifer's tumors. It will provide much needed assistance to Dr. Michele Monje and her dedicated research team.
